

Copenhagen 10 August 2018

A.P. Moller Capital has raised USD 982m (DKK 6.3bn) for the Africa Infrastructure Fund

12 months after the launch, A.P. Moller Capital has received total commitments of USD 982m (DKK 6.3 Bn) from leading institutional investors including PKA, PensionDanmark, Lægernes Pension, PFA, Danica Pension, SEB Pension och Försäkring, Lærernes Pension, and A.P. Moller Holding.

With total commitments in line with the ambition for the Africa Infrastructure Fund, A.P. Moller Capital will therefore conclude the fundraising period in the next few months, after finalizing ongoing dialogue, with a few remaining potential investors.

Thereby, A.P. Moller Capital will shift gear to focus entirely on investments.

Kim Fejfer, CEO and Managing Partner of A.P. Moller Capital says: "We are very pleased with the significant support from a strong and professional group of likeminded investors, and that we can conclude the fundraising period in line with our ambitions. I believe, we have jointly established the basis for a rather unique and compelling proposition. It is now our task to turn this capital into sustainable projects to drive job creation and improve living standards across Africa." Kim Fejfer continues: "As we now enter the investment period, the entire team will focus on maturing the construction and acquisitions opportunities in Africa, that we have developed over the last year."

The Africa Infrastructure Fund is an investment fund creating and enabling opportunities through investments in Africa infrastructure. The purpose is to support sustainable economic growth and prosperity on the continent, and at the same time deliver attractive returns to the investors. The Africa Infrastructure Fund has a duration of ten years.
